## MEGA CORP ANNOUNCES STRATEGIC EXPANSION INTO AFRICA

**Albuquerque, NM** – Mega Corp, a global leader in water distribution equipment, service bodies, and specialty haulage solutions, is proud to announce its further expansion into Africa, with a particular focus on South Africa. This strategic move aims to bring Mega's renowned quality, innovation, and support increasingly closer to its growing customer base in the region.

### About Mega Corp

Since 1976, Mega Corp has delivered premium solutions to the construction and mining industries, earning a reputation for unmatched product durability, innovative technology, and exceptional service. Mega products, from high-performance water tanks to cutting-edge dust suppression systems, are engineered to work seamlessly as a system, maximising efficiency and minimising downtime for mining operations worldwide.

### We show up: Solving critical challenges

Mega Corp understands the unique challenges faced by its customers in the mining and construction sectors. By addressing issues like water leakage, dust suppression, and equipment downtime, Mega's solutions streamline operations, improve safety, and reduce total cost of ownership. With tanks designed to last 25+ years, Mega's products are built for durability and reliability in even the toughest environments.

### On solid ground: Making the most of Mega's African presence

As a 25-year veteran equipment manufacturer in Africa, Mega Corp is further strengthening our presence on the continent with a specific focus on southern Africa.

Mega Corp is bringing its globally renowned products and services ever closer to customers, reducing lead times and enhancing support. A key element of this expansion is continuing to partner with credible, well-established local businesses such as South Africa's [Efficient Engineering](#). These collaborations ensure that Mega's solutions are not only locally accessible but also tailored to meet the unique needs of the African market.

By leveraging the expertise of trusted local partners, Mega is able to deliver faster service, build stronger relationships, and address regional challenges effectively, reinforcing its ongoing commitment to foster local growth and drive the success of the mining sector in Africa.

### Here to make a difference. Here to stay.

Mega Corp envisions a strong future in Africa, driven by its mission to deliver value to customers, employees, and communities.

By integrating its global expertise with local insights, Mega aims to become the trusted partner for mining and construction operations across the continent.

### Our commitment, your promise

Mega Corp remains steadfast in its dedication to quality, innovation, and service. With a legacy built on trust and a future focused on empowering industries, Mega invites businesses across Africa to explore its solutions and partner for success.
